Presenting Aurum Rivière d'Or

Aurum Rivière d'Or is by Regardez Moi (Rubinstein) out of Aurum Belle (Flooding/Vain).

Rivière d'Or is currently in the early stages of training under saddle and showing a strong ability and willingness to learn and take things in his stride. He displays a quite striking flamboyance of movement which often catches people by surprise. For us this shows the strength of the mare line as much as the stallion line.

His grandsire was one of the world's leading sires of Dressage Grand Prix horses, Rubinstein. Rubinstein is no longer with us of course and due to the poor quality of his frozen semen it is almost impossible for anyone to breed directly with him.

Rivière d'Or's dam Aurum Belle was bred by Aurum out of a super moving Vain line mare and is a classic example of selective breeding to produce desirable characteristics. She was retained in the breeding herd and has never been broken in or competed. Each of her foals has inherited her wonderful expressive movement. She is one of those rare horses who combines wonderful floating strides with excellent knee and hock action hence producing natural power and elevation. She also passes on great presence to all of her foals.

2007 Stud Fee \$1800 inc GST
